**Course Text:**

Balme and Lawall, **Athenaze** vol. 2

**General Course Information:**

1. We will go through all of volume two of *Athenaze* this term.
2. There will be four tests. Each test will focus on material covered in the previous weeks, but will, of course, be cumulative.
3. There will be a short quiz, virtually every day.

**Course requirements:**

1. **Class attendance and participation** is essential. You must keep up with the assigned homework, especially since this is an intensive course. We will try to go over all assigned work in class, but we may not always succeed, especially on test days. You must prepare all material nevertheless; if you have questions over anything which we have not been able to cover in class, see me or the tutor asap.
2. You are required to take all quizzes and tests. **I will not give make-up exams or quizzes without prior clearance.**
3. Karen Laurence will continue tutoring in Room 212, every class day from 8:30 to 9:15 am.

**Grading:**

Four hour tests	75%
Quizzes	25%

**Some advice:**

1. Do not write your translation in your book or you will tend to look at what you have written and not at the text and that will not do you any good. Instead, keep a special notebook to record vocabulary, difficulties, questions, and points made in class. Review your notes regularly, but especially as you work through the homework assignment and before a test.
2. Even more importantly, do not write out a translation of the stories in *Athenaze*. If you do, you will probably look more closely at your English translation than at the Greek text. The more often you work through the Greek text, the better you will understand it and the more vocabulary you will master. If you (foolishly) insist on writing out an English translation, **do not bring it to class with you**. Trying to correct your English translation during class will keep you from looking at the Greek; let me assure you that looking at the Greek again will help you far more in developing your translation skills than will a correct written English translation.
3. Regular study habits are crucial for successfully completing this course. In a college course, you are expected to spend two hours outside of class to prepare for every hour spent in class. Study on a daily basis; do not simply study for a quiz or a test.

Additional Advice to the Ambitious and Wise (taken from Professor Bill McCullough of Kenyon College)

- For study, pick a time of day (preferably several times a day) when you are fresh. Work intently for short periods—no more than an hour at a time. Work every day. Last minute cramming is a waste of time and energy.
- When studying, proceed by learning only as much as can be effortlessly repeated at once. If you have to strain to remember what you just went through—or make efforts while repeating—this means that you are attempting too much at once. Break into smaller parts, and repeat more frequently.
- Read and pronounce all Greek ALOUD as you are learning it. If you have any doubts or questions regarding the pronunciation of forms, please ask me.

## Syllabus

Today's Date	Quizzes / Tests for Today	New Grammar To Be Covered Today	Homework for Tomorrow
Friday, July 6		go over test 4 from GREK 2050 & sight translating	review chapters 1-16 read chapter 17
